

3. "Have you made up the story about killing Jeanine Nicarico?"

Ans., "No."

4. "Was there anyone else with you when you killed Jeanine Nicarico in DuPage County?"

Ans., "No."

5. "Have you falsely admitted the homicide of Jeanine Nicarico to get those convicted freed?"

Ans., "No."

It is the qualified opinion of this examiner, based on his polygraph records, that he is telling the truth to the above questions.

This report is qualified due to the type of examination rendered. The suspect has already been sentenced for life by taking a plea on two other homicides. Therefore, it is not known if the suspect would have the necessary fear of detection present during the testing procedure if he lied when he admitted a third homicide.

If you have any questions regarding this report, please feel free to contact me.
